### A Schooner Wrecked.

The schooner Melrose with a crew of eight and passengers was wrecked Saturday. Just before sunset a great wave swept over the vessel capsizing it and throwing the passengers and crew into the sea. Mrs. Hallen, one of the passengers was lost but the crew managed to cling to the sides of the vessel and Mr. and Mrs. Waller, two other passengers, found themselves in the water within reach of the yardarm of the foremast, when the ship righted herself the two still clinging to the rigging. The mast, however, fell and crushed Mrs. Waller. Her lifeless body was washed overboard while Mr. Waller had both bones of his right arm broken. The schooner drifted until Monday when all were washed overboard. Mr. Waller grasped a hatch and floated ashore landing near Palm Beach as did the captain, mate and two colored seamen. One white man and four negroes were drowned. At present it is impossible to give their names.

## WOMAN TERRORIZES BOTETOURT MEN

Levies Tribute for Herself and Horse and Three Dogs.

(Special to The Times-Dispatch.)  
BUCHANAN, VA., Oct. 19.—For the past ten days a strange woman, fantastic in appearance and dress, has been greatly worrying the people of lower Botetourt and Rockbridge. She wanders about the country with a horse, which she leads by a rope, thought bridled and saddled and three dogs. Food for herself and dogs she levies upon whatever farm house she happens to be near when hunger comes, and she abundantly provides for her horse from any convenient corn crib. After nightfall she usually puts her horse in some farmer's stable, feeds him liberally with grain and provender and finds rest for herself in the hay. There is one farmer, who objecting to the free use being made of his stable and feed, ordered the woman away. She refused and the farmer started for the horse to remove it. The woman at once whipped out two pistols and aiming them at him dared him to touch the horse at the peril of his life.

Where the woman comes from nobody knows. She says she is the daughter of a stockman who is somewhere in Virginia, selling horses from whom she has become separated and who is on her way to join him, but as she has been for ten days in the same neighborhood, not much faith is put in her story.

She calls herself a cow woman and holds the farmers in great contempt, far inferior to the cow boys and cow women. She says her name is Bessie Hatfield and claims to belong to the Kentucky family of that name. She is apparently of middle age, and has light hair which is short and curly.

## GALLANT KNIGHTS MAKE A DAY OF IT

Automobiles Race and Win Prizes—Enjoyable Ball Last Night.

A large crowd of people saw and enjoyed the automobile races, and the tournament at Broad Street Park yesterday afternoon. The automobile obstacle races were particularly interesting, and some good speed and manipulation was shown. Before the affair started a parade of the autos with two bands was had from the City Hall to the park.

The first event was the obstacle race. "White Steamer," Dr. Stuart McGuire's auto, with E. A. Blenner as chauffeur, made the half-mile in 3:50, striking two obstacles.

"Cadillac," of the Foster Auto Company, made it in 3:40, with three obstacles struck and over tops.

W. C. Pond, on an overtaken buckboard, made it in 3:35, with no obstacles down, and won the blue ribbon.

The second prize was won by S. Stagg, on a Knox Water Motor, in 3:56, over obstacles.

The points between Foster and Blenner resulted in a tie. Both of these gentlemen acquitted themselves most creditably.

Blenner ran against time and made the half in 3:10.

The second event was won by Blenner, 3:10, in 35 seconds. Foster, second, in 38; Stagg, third, in 52; Vaughan, fourth, in 62, handicap.

The next feature was the tournament, with the following winners:  
First—F. F. White, Knight of Fork Union, \$20.

Second—Lynn Moody, Knight of Bon Air, \$10.

Third—A. Jahnke, Knight of Virginia, \$5.

There were ten entries in this event. The judges were Messrs. W. A. Hammond, Major R. M. H. T. Davis, Vaughan, Lloyd and Jenkins.

The Dixie Tournament Association, under whose auspices this affair was held, will give annual tournaments and fairs. The ball at Broad Street Hall last night was a most enjoyable affair.

## THE AMERICAN NUT JOURNAL

The Only Paper in Existence Devoted to a Large Industry.

The "American Nut Journal" has just begun issue at Petersburg, Va., succeeding the "Trade Journal," which began publication about one year ago, and which, by reason of the space devoted to nut news, gained a large circulation throughout the United States. William N. Roper is editor and general manager. The "American Nut Journal" has the distinction of being the only publication in the world devoted to the nut industry, which has become a very important one in this country, especially in the South.

The principal office is located at Petersburg, Va., which is the largest Spanish peanut market in the world. One of the branch offices is at Norfolk, Va., which stands at the head as a market for Virginia peanuts, and the other branch office is at Coleman, Tex., which is in the midst of the greatest pecan section of a State that exports more carloads of pecans than all the rest of the world combined.

Dealers have long felt the need of a publication that would give them authentic information and they will welcome the "American Nut Journal," which will give them all the news in the industry, not only in this country, but throughout the world. Progressive land-owners and farmers in the United States, especially in the South, are finding out that nothing they can plant on the farm will so permanently enrich the property as nut trees. Practical and expert growers will conduct departments in this journal and the information that they will give will prove of great value to those who are interested in growing nut trees, whether for shade trees only or for profit.

The "American Nut Journal" is one of the most attractive publications of its kind ever issued in the South. It has twenty-four pages, nine by twelve inches, printed on toned paper with a handsome gray cover printed in two colors and the news columns are well illustrated. It is issued twice a month.

Interesting articles in the current issue treat on "Peanut Trees and Their Culture," by Herbert C. White, De Witt, Ga.; "The Value of Nuts as Food," by Prof. Charles W. Burkett, of Raleigh, N. C.; "Opportunities in Pecan Culture," by William Nelson, of New Orleans, La.; "Nut Culture in North America," by H. E. Van Deman. Comprehensive reports from special correspondents cover the trade in all the leading markets.

### POOR GIRL GETS

A LARGE VERDICT

(Special to The Times-Dispatch.)

CHICAGO, ILL., Oct. 19.—Forty thousand dollars is a fine fortune for a poor girl with only one arm, and that possessing only four fingers and a thumb. The girl, who is now fifteen years old, has waited since October 31, 1895, for satisfaction from the street car company. She was run down by a car in Western Avenue. In her case there have been three trials, the first of which resulted
